Seed - to - Skate

Ever wondered where skateboards come from?

In this all ages workshop, meet the maple tree, where all of our skateboards come from. Learn about how skateboards start as a tree, and get turned into the shapes we love.

Come with curiosity and a can-do attitude, leave with a new custom skateboard deck designed and shaped by you!

You will learn

- introduction to maple trees and wood
- Brief history of skateboard manufacturing, function, and shapes
- terminology of parts and design
- Woodworking skills: how to safely use a saw, sander, and drill
- ways to modify and customize your board

**2.5 hours -5-15 learners \$40/student
if under 18, required 1:5 ratio of adults/minors**
