

Seed - to - skate

Ever wondered where skateboards come from?

In this all ages workshop, meet the maple tree, where all of our skateboards come from. Learn about how skateboards start as a tree, and get turned into the shapes we love. Come with curiosity and a can-do attitude, leave with a new custom skateboard designed and shaped by you!

You will learn

- introduction to maple trees and wood
- Brief history of skateboard manufacturing, function, and shapes
- terminology of parts and design
- Woodworking skills: how to safely use a saw, sander, and drill
- ways to modify and customize your board

we work with schools, community centers, camps, groups of friends, and anyone willing to learn.

it takes roughly 3 hours.

For groups of 5 or more we charge \$40 per person

15 students per session max

if under 18, 1:5 adults/minors req.
